RAVISHKA THUSHAN

I am a dedicated and passionate software engineer for software development and innovation. I seek new experiences by taking on new challenges and looking for opportunities to learn new technology and grow in the field of IT. My aim is to contribute to productive projects and collaborate with innovative teams.

WORK EXPERIENCE

- Polypackaging Industries (Pvt) Ltd** 2020 - 2022
Quality Assurance Executive
 - Assisting in placing superior products in the hands of customers by checking the quality of food packaging and other packaging products produced in the company and assuring their quality.
 - Support the company's ISO quality management function.

PROJECTS

MangoMart (Web application)

- Tech - MERN (Mongo DB, Express.js, React.js, Node.js) stack | Tailwind CSS
- Responsibility - Individual

Completed the academic project of developing an mango selling web application for GT Mango Store, Omaragola, utilizing the MERN stack for both front-end and back-end development. It is developed to be efficient and user-friendly.

Eco Trash (Web system)

- Tech - PHP | HTML | CSS | Bootstrap | JavaScript | MySQL.
- Responsibility - Lead developer of 4 member team.

In the academic project, played a crucial role as a team leader and member in developing a PHP based web system as a solution to the current garbage problem. This system is designed to collect garbage from urban dwellers and pay them some value for trash weight.

Portfolio Web Site

- Tech - React | Tailwind CSS

This is my personal portfolio web site developed using React Framework.

Employee Salary Calculator

- Tech - Java
- Responsibility - Individual

This is a Java project using NetBeans IDE. This system created to calculate the salaries of the company's employees.

Hotel Reservations Management Sysytem

- Tech - MS Access | VBA
- Responsibility - Individual

As the first ICT project, this system was created using MS Access and VBA to facilitate hotel room booking, food and beverage ordering and employee management.
